Re: United States v. Robert Kelly, 19-286 (S-1)(AMD)

Dear Judge Donnelly:

I was advised last night that one inmate on Mr. Kelly's floor had tested positive for Covid 19 and been taken to the hospital. I reached out to the correctional center this morning to verify this information but as of yet have not heard back. But the Director of the Federal Defender's Office for the NDIL did send an email this morning advising that "The MCC is in the midst of a serious outbreak". I wanted to bring this additional information to the Court's attention at the soon as practical moment.

Respectfully submitted,
